- For warranty service on equipment purchased from CCS Presentation Systems, please contact Henry Barnston at (323) 954-7754 ext. 213 and provide model and serial number.
- For **replacement** projectors only, **you must** contact M&O for proper recommendation regarding accurate projector lens size.

CLASSROOM DISPLAY COMPONENTS

Items to consider before making classroom display purchases:

- Overall cost of ownership (installation, repairs, replacement). Get a quote on the installation before the purchase.
- Does the equipment meet school safety and installation requirements? (e.g. not more than 4" from board)
- The equipment should not require specialized software or hardware, such as downloads and intelligent pens, etc.
- The equipment does not tether the teacher to a single point in the classroom.
- The equipment allows students to "do work on the board". This means that there is a way for students to write on the equipment and/or a way for student devices to project on the equipment (students can interact on the board).
- The equipment does not interfere with our existing access points or network.
- Equipment has the ability to be hardwired to network.
- A Consultation with the Director of Technology Services and Director of Operations should take place before any purchases are made.
